

FRENCH SOUTHERN AND ANTARCTIC LANDS

INTRODUCTION

The Southern Lands are now divided into five administrative districts, two of which are archipelagos, Iles Crozet and Iles Kerguelen. The third is a district composed of two volcanic islands, Ile Saint-Paul and Ile Amsterdam. The fourth, Iles Eparses, consists of five scattered tropical islands around Madagascar. They contain no permanent inhabitants and are visited only by researchers studying the native fauna, scientists at the various scientific stations, fishermen, and military personnel. The fifth district is the Antarctic portion, which consists of "Adelie Land."

GOVERNMENT

Chief of State

President Emmanuel MACRON

Head of Government

represented by Prefect Charles GIUSTI

Government Type

overseas territory of France

Capital

none (overseas territory of France)

Legislature

none (overseas territory of France)

GEOGRAPHY

Area

see WFB for areas of each island

Climate

Ile Amsterdam et Ile Saint-Paul: oceanic with persistent westerly winds and high humidity;

Iles Crozet: windy, cold, wet, and cloudy;

Iles Kerguelen: oceanic, cold, overcast, windy; **Iles Eparses:** tropical

Natural Resources

fish, crayfish, note, Glorioso Islands and Tromelin Island (Iles Eparses) have guano, phosphates, and coconuts

ECONOMY

Economic Overview

very small, fishing-based, domestic economic activity; military base servicing

GDP (Purchasing Power Parity)

NA

GDP per capita (Purchasing Power Parity)
